NOTE OF APPRECIATION

Utah Prosecution Council and the Statewide Association of Public Attorneys express deep appreciation to the Utah Counties Indemnity Pool, the Utah Association of Counties, and the Government Law Section of the Utah State Bar for the professional expertise and the financial assistance provided by them in the planning and presentation of the 2014 Government Civil Practice Conference. This is the Government Law Section's first year contributing to this conference. Their endeavor is to bring together attorneys who share the common goal of providing legal advice and services to governmental entities and providing opportunities to learn, network, exchange ideas, and give service. The professional and knowledgeable staffs of these organizations bring important expertise and experience to the conference planning process and to the presentations of the conference agenda. Their financial assistance enables UPC to stretch its training budget. Thank you UCJP, UAC and the Government Law Section of the Utah State Bar .
